

**Los Angeles
Preservation Network**

**DISASTER SUPPLIES
VENDOR LIST**

2014

About Us

The Los Angeles Preservation Network (LAPNet) was established in January 1987 to meet some of the preservation needs of librarians, archivists, conservators and records managers working in Los Angeles city and county. Its affairs are managed by a Steering Committee of ten to fifteen members drawn from libraries and other record depositories in the Los Angeles area. The Committee hopes to involve a wide range of interested professionals in the activities of the network by inviting them to serve on subcommittees and task forces and to participate in workshops and seminars. LAPNet aims to foster the development of cooperative preservation programs among all the libraries in Los Angeles, irrespective of size or type, and to serve as a forum of information exchange between librarians and others concerned with preservation and conservation.

LAPNet was incorporated as a non-profit organization in the state of California in January 1990. In May 1991, the Internal Revenue Service recognized LAPNet as a non-profit organization under Section 509 (A)(2) of the Internal Revenue Code.

NOTICE.

Inclusion in the List is NOT an endorsement of a vendor by LAPNet. Many vendors of good repute not listed may also offer the same supplies and services.

If you know of a vendor who should be included in future revisions, please let us know!

—LAPNet Steering Committee
